Walter ONE

Remote reading of water meters

Info

It is an innovative cover mounted on the water meter. It reads the digits visible on the water meter dial, indicating the water consumption, and transmits them via Bluetooth communication to the Elias application installed on the smartphone. Thanks to this, the user has knowledge of the current consumption without having to consult the meters.

Application

The cover is designed for mounting on single-jet and volumetric water meters of any water meter manufacturer. It enables cooperation with a wide range of devices forming the structure of remote reading and data transmission.

Functions

Presentation of water consumption by hours,

Presentation of water consumption by days,

Presentation of water consumption by weeks,

Presentation of water consumption by months,

Data buffering over a period of 60 days,

Technical data

Mounting method	Directly on the water meter
Warranty	12 months
Purpose	Reading the water meter indications
Casing	ABS
Tightness class	IP 68
Size	73mm x 69mm x 44mm
Weight	0,055 kg
Power	2 x 1.5V - AA battery
Reading	every 1 h
Certificate	CE, ROHS
Radio parameters	
Communication	Bluetooth 5.0
Transmission Type	one-way
Working temperature range	-4C to +50C
Mounting method	Directly on the water meter
Warranty	12 months
